Professional Summary

Backend-focused **.NET Developer with 4+ years of experience** building scalable, secure, and high-performance enterprise applications using **ASP.NET Core, C#, Microservices, and SQL Server**. Strong expertise in **RESTful API design, JWT authentication, SQL performance optimization (Dapper & EF Core)**, and system integrations. Proven track record of delivering **production-grade solutions** in **healthcare and finance domains** within **Agile teams and CI/CD-driven environments**.

Key Skills

- Languages:** C#, JavaScript, TypeScript, HTML, CSS
- Backend Frameworks:** ASP.NET Core, Web API, Entity Framework Core, Dapper, ASP.NET MVC
- Frontend (Working Knowledge):** Angular 13+, jQuery, HTML, CSS
- Databases:** SQL Server (Advanced), Oracle, MySQL
- Tools & Platforms:** Azure DevOps, Git, TFS, Visual Studio, VS Code, Postman, Swagger
- Concepts:** Microservices Architecture, REST APIs, JWT Authentication, SOLID, OOP, Agile/Scrum, CI/CD

Professional Experience

Software Engineer - Enaviya Information Technologies Pvt. Ltd. (August 2022 – Present)

Integrated Healthcare Technology Management (Jan 2024 – Present)

- Designed and developed 6+ backend microservices (Inventory, Purchase, OPD, OEM) using **ASP.NET Core, C#, and Dapper**, applying **SOLID principles** to improve scalability and reduce API response time by ~35%.
- Implemented **JWT-based authentication and role-based authorization**, ensuring secure access to sensitive healthcare data.
- Designed and documented **RESTful APIs** using **Swagger**, enabling smooth integration with internal teams and third-party systems.
- Optimized **complex SQL queries and stored procedures** using Dapper, reducing data retrieval time by **40%+** for high-volume transactions.
- Contributed to **microservices architecture design**, including API contracts, centralized authentication, global exception handling, logging, and **Azure DevOps CI/CD pipelines**.
- Collaborated in **Agile Scrum ceremonies**, resolved production issues, and maintained clean, version-controlled code using **Git**.
- Developed responsive Angular 13+ components supporting 5,000+ daily active users and seamless microservices integration.

Financial Assurance Portal (Apr 2023 – Dec 2023)

- Developed an ASP.NET MVC-based audit and compliance portal, implementing dynamic multi-step workflows using OOP concepts (polymorphism & inheritance), reducing manual processing time by ~40%.
- Integrated OpenAI / GPT APIs to build an AI-assisted reporting feature that generated on-demand summaries, risk insights, and graphs from audit data, improving auditor productivity by ~25%.
- Built JavaScript-based interactive heatmap visualizations for real-time audit risk analysis, enabling faster decision-making for finance stakeholders.
- Optimized report generation for 10k+ records using EF Core, indexed queries, and custom stored procedures.
- Implemented validation, error handling, and audit trail mechanisms to ensure data accuracy and compliance readiness.
- Collaborated with auditors and business users to refine requirements, resolve edge cases, and improve report usability.
- Managed branching, code reviews, and deployments using TFS, ensuring stable and zero-downtime releases.

Environment, Health & Safety (EHS) Application (Aug 2022 – Mar 2023)

- Developed incident and hazard reporting modules using ASP.NET Core, C#, and jQuery to digitize safety reporting workflows.
- Used Entity Framework Core for efficient SQL Server operations while maintaining data integrity across multiple departments.
- Designed role-based access and validation logic to ensure accurate data capture and controlled visibility of safety records.
- Integrated third-party APIs and customized workflows to support SAP system compatibility and downstream reporting.
- Implemented basic logging and error handling to improve system reliability and ease of issue tracking.

Education

- Bachelor of Engineering (B.E.) - Computer Science -Visvesvaraya Technological University, Bangalore 2018 – 2022
- Intermediate (PCMB) - Ram Krishna College, Madhubani, Bihar (2016)
